Outdoor

DBA-5P is a smart IoT doorbell access control product that integrates functions such as remote video door opening with mobile phone, two-way voice intercom with mobile phone, remote video monitoring, abnormal alarm push, access control and visitor management. Through the modern Internet of Things technology, combined with the Internet of Things platform, the intelligentization and cloud deployment of security products are realized. Products are widely used in offices, villas, residences, communities and other places.

DBA-5P

Appearance Material: PVC+ABS(anti-UV) + aluminum alloy
Resolution: Video 1920x1080@60fps or 2592x1900@25fps
                 Picture 1920x1080
Processor: High-performance single-core ARM chip/ISP/NPU
Identification Method: EM\MF\NFC\Desfire Card\Password
User Capacity: 1000
Storage Capacity: Standard 32G(64G/128G optional)
Input: 1 Exit button, 1 door magnetic
Output: 1 Lock, 1 Tamper switch
Working Voltage\current: DC12V±10%\1A
Working Environment: -20℃-60℃ /10%-90%
Size: L197XW79XH57.5mm
IP66

Project Ancillary Products

Electric Lock

Picture	Electro-magnetic Lock 	Electro-magnetic Lock
Model	ASL-3201MS	ASL-3201ATS
Maximum Pull	80kg (350Lbs) linear pull	
Signal Output	———	Lock status signal NO, COM contact
Protection Class	IP68	
Door Type Applicable	Wooden Door, Glass Door, Metal Door, Fireproof Door	
Working Voltage\Current	12V/400m(±10%) 24V/200mA(±10%)	
Working Environment	-20 ~+55 °C(-4—131°F)	
Size	L190xW32xH22.5(mm)	L175×W39.5×H26.5(mm)

Picture	Electric Control Lock
Mode	ASL-3702
Material	Iron(Electroplating Treatment)
Door Type Applicable	Wooden Door, Glass Door, Metal Door, Fireproof Door
Working Voltage\Current	12V/300mA(±10%)
Working Environment	-20~+55 °C(-4—131°F)
Size	L126×W34.5×H26(mm)

Power

Picture	Outdoor & Waterproof Power Supply 	Indoor Power Supply
Mode	ASCB-6700	ASCB-630P
Input Power	AC110V~220V	
Output Power	DC 12V / 5A	
Protection Class	IP65	———
Material	Steel Plate	Aluminum alloy
Working Temperature	-20℃~+55℃(-4—131°F)	
Working Humidity	0~95%	
Size	L273xW175xH72(mm)	L168×W76×H48(mm)

Make Your **Doors** Smarter

Typical Applications

Courtyard Doors
Waterproof, high temperature resistant

Automatic Glass Doors
Fast pass, easy to install

Office Glass Doors
Easy to install, easy to manage

Tuya Empowering

As Smart As You Wish

Through the TUYA App, we can also add cameras, alarms, fire fighting equipment, smart sensors and more for all-round inte-lligent and integrated management of your home.

Video Surveillance Management

Various types of cameras can be added through the TUYA App, allowing for different scenarios such as offices, villas and flats.

Smart Camera

Smart PTZ Camera   Infrared Camera

Sensor

Various types of smart sensors can be added through the TUYA App, which enables intelligent management of PIR human infrared detectors, temperature and humidity sensors, smoke detectors, environmental sensors, vibration sensing and brightness sensors.

Sensor Device

PIR body infrared detector   Temperature and humidity sensor

Lights

The TUYA App allows you to add a variety of patio lights, spotlights, sensor lights, ambient lights and wall lights for intelligent management of lighting.

Light Device

Spotlight   Patio light
